

## The Architect 50

Our third-annual ranking of American architecture firms judges them on three factors: profitability, sustainable ethos, and design quality. By looking at the whole picture, we're able to honor not the biggest, but the best.

There were 120 eligible firms that took part in this year's ARCHITECT 50. The top 50, and top 10 in each category can be found on the accompanying pages. Below are those firms who made the ranking, but not in the top 50. Given a good 2011, any of these firms could move their way up in the rankings next year. (Just look at Ikon.5 Architects, who moved up 60 spots from Number 67 in 2010 to Number 7 this year.)
